## Cuba Friends of Architecture seeking photos of Keller-Opera House events

*CUBA—While awaiting final reconstruction plans, volunteers Paul Switalski and Mike Dewe, with the assistance of Dana Klein, and John Cappellini are working on the interior of the Palmer Opera House. Here they are preparing to reassemble sections of the old stage woodwork. In a related project, volunteers are also creating replicas of old photos. If you have photographs (1879- 1939) of events that may have occurred in or near the Palmer (Keller) Opera House, please consider lending it to Michael Doyle, (968-0067), for duplication and use by the Cuba Friends of Architecture.*
